

TINPLATE TRADITIONS Blue Comet Passenger Car

OPERATING INSTRUCTIONS

Thank you for purchasing the TINPLATE TRADITIONS Blue Comet Passenger Car by MTH Electric Trains®. This tinplate model car combines the designs of yesteryear with the quality and craftsmanship of today's MTH products.

LUBRICATION

Use a light household oil for lubrication. Apply oil sparingly, using a toothpick or small applicator. Add a drop of oil to the axle holes in the front and rear of each wheel, to each side of the pickup roller axle, and above and below the clip on the coupler arm pivot (see Figure 1, below). Wipe away excess oil with a cotton swab.

LIGHT BULB REPLACEMENT:

First, pinch the spring-loaded roof tabs together. The roof will be freed from the car body, exposing the interior of the car (see Figure 2, below).

Figure 2: Roof Removal

After the car interior is exposed, simply unscrew the light bulb from its socket mounted either under the center light bracket or at the front of the car and replace it with a new one (See Figure 3). Replacement 18 Volt, screw-based bulbs can be purchased directly from MTH Electric Trains, Inc.
